PROJECTS/EXPERIENCE

Personal Portfolio / GitHub Link: https://nwest12303.github.io/Personal-website_4/

Technologies used: HTML, CSS, JavaScript, Visual Studio

Created a website to showcase my qualifications and personal accomplishments.

Food Truck

Technologies used: JavaFX, IntelliJ

Designed an interactive user interface for a food truck user interface using JavaFX as a class project.

It showcases a menu that allows customers to pick options, and it is able to calculate the total for the order.
